This step shows the assembly of the top of the engine. A black Technic beam is being placed over a central mechanism that includes a grey motor and various gears. The assembly is supported by a base of black and grey Technic bricks. A black arrow points to the specific location where the beam should be attached.

This step shows the side wall of the train car being assembled. A long, dark grey Technic beam is being attached to the side of the car. The beam has a series of circular holes along its length. A black Technic plate is being attached to the side of the beam, and a black Technic plate is being attached to the bottom of the beam. The side wall is being built up from the bottom of the car.
